### SUMMARY

---

Computer programming student with practical experience in computer hardware repair, network configuration, and software installation. Proficient in Python, C/C++, and Linux with a strong interest in systems programming and engineering-oriented software development. Motivated to contribute to innovative technology projects while improving technical and problem-solving skills.

### PROFESSIONAL EXPERIENCE

---

#### Biga Bilişim Bilgisayar

Jun 2023 - July 2024

- Performed repair and maintenance of computer systems and hardware components. Designed and implemented company-specific network infrastructures and hierarchical network structures. Installed, configured, and maintained network connections to ensure stable and secure connectivity. Provided post-sales technical support and troubleshooting services for clients. Installed and configured Mikro Accounting Software and assisted customers with initial setup and system integration.

### EDUCATION

---

#### Computer Programming

Sep 2024 - Current

Ege University

### PROJECTS

---

#### International Cargo Company Database Project | SQL, MySQL

Oct 2025 - Nov 2025

Developed as part of the Database I course.

- Led the project team and coordinated task distribution during the development process.
- Designed the database schema and defined relationships between entities.
- Created SQL tables, queries, and data structures to manage cargo and logistics data.
- Integrated the database with a user interface-based system for data management and interaction.

### SKILLS

---

Programming: Java, Kotlin, C, C++, Python, Assembly

Tools: Git, Linux

Databases: SQL, Oracle DB

Concepts: Data Structures, OOP, Algorithms, Encryption, Computer Networks, Embedded Systems

### ADDITIONAL INFORMATION

---

- Languages:** Turkish – Native, English – B2
- Certifications:** TUSAŞ LIFT UP - Sanayi Odaklı Lisans Bitirme Projeleri Konferansı 2024-2025 Katılım Belgesi, Savunma Sanayi Akademi Kariyer ve Yetkinlik Buluşmaları Katılım Belgesi
- Member - Ege Savtek Community:** Participated in defense industry seminars, technical talks, and organized visits to companies in the defense and aerospace sector. Contributed ideas and feedback during community discussions and collaborative project activities. Engaged in discussions on emerging technologies and their impact on modern military strategies and defense systems. Followed developments in defense technologies and exchanged insights with other members through workshops and informal meetings.
